(54) Title: DEVICE FOR PROCESSING DEMONSTRATION SIGNALS AND DEMONSTRATION CONTROL DATA

(57) **Abstract:** At a playback device (10) comprising at least one signal processing means for processing a signal and switching means for switching the playback device (10) into a demonstration mode a demonstration of an inherent function of the playback device (10) can be performed. Therein supply means (40) for supplying demonstration data for the demonstration and data reading means (40) for reading demonstration control data of a data carrier (41) which comprises demonstration control data for performing the demonstration are embodied as well as processing means (53) for processing the demonstration control data such that the demonstration data are transmittable to the at least one signal processing means during processing of the demonstration control data.
